

Ballarat Sebastopol Cycling Club

Power2Pedal is changing lives, one ride at a time. This inclusive bike riding program helps children with autism learn to ride independently, building not just physical skills, but also confidence and joy along the way. Led by passionate volunteers from the Ballarat Sebastopol Cycling Club, the program offers a safe, supportive space where every child is encouraged to thrive. Each session is filled with small victories, smiles and a supportive community cheering every milestone. Power2Pedal proves that with the right support, every child can experience the thrill of two wheels.
